Dear [Name],

This is a letterhead template. Replace this block with the body of your letter. Keep paragraphs in this same font and size for a clean, consistent house style. The red rule, logo, and footer print automatically on every page.

To use it: open this file in your browser, replace this text, then print to PDF (Cmd/Ctrl + P → Save as PDF, paper size A4, margins set to None / Default). You can also paste the body text into Google Docs or Word if you prefer, using the same header and footer.

Warm regards,

Your Name
Title, Roztomily
